

Oficina De Encadernacao Manual E Artesanal

Marina Frasca-Spada,Nicholas Jardine

A Encadernação E A Conservação Dos Livros: Um Manual Para Amadores, Encadernadores E Bibliotecários Douglas Cockerell, 2022-02-06 Publicado pela primeira vez em 1902 na Inglaterra, esta obra-prima de Douglas Cockerell, incrivelmente atual, reúne instruções para a execução de diversas técnicas de encadernar livros, de acordo com o cânone estabelecido na encadernação clássica. Destinado a bibliófilos, profissionais da encadernação, bibliotecários e amadores, este manual contém as técnicas de encadernação e os métodos para reparos e conservação de livros, e ainda algumas preciosas dicas sobre decoração de livros através da douração a punho, tudo descrito de maneira bastante minuciosa. Traz ainda ricos comentários sobre os melhores tipos de couro e de papel usados nas encadernações. Trata-se realmente de um manual completo sobre as artes e ofícios da encadernação.

O Capital - Livro 1 Karl Marx, 2015-10-23 Tradução vencedora do Prêmio Jabuti de Melhor Tradução (2014). O clássico de Marx foi originalmente publicado na Alemanha em 1867 e é considerado a mais profunda investigação crítica do modo de produção capitalista. O capital, da Boitempo, é o décimo sexto volume da Coleção Marx e Engels e conta com introduções de Jacob Gorender, José Arthur Giannotti e Louis Althusser, além de texto de orelha de Francisco de Oliveira. O capital é uma contribuição basilar ao pensamento anticapitalista, em especial a tradição marxista, que de certo modo se consolida com este livro. O objetivo de Marx era, por meio de uma crítica da economia política, compreender como o capitalismo funciona. Diante desse desafio, ele desenvolveu um aparato conceitual e metodológico para entender toda a complexidade do capitalismo, as categorias que constituem a articulação interna da sociedade burguesa e a relação direta entre acumulação de capital e exploração da força de trabalho. O percurso a ser seguido para entender a lógica do capital é árduo, lembra Francisco de Oliveira, no texto de orelha. Segundo ele, a leitura de O capital tem de ser feita de maneira paciente e disciplinada, tendo em vista a complexidade do objeto de análise de Marx. Ele examina antes de tudo a mercadoria e sua formação, pois o capitalismo continua a ser, mesmo em sua fase amplamente financeirizada, um modo de produção de mercadorias, explica o sociólogo. José Arthur Giannotti realça em sua apresentação que a obra de Marx nunca perdeu seu interesse e sua relevância, a despeito das idas e vindas das modas atuais do pensar e dos novos paradigmas em que a ciência econômica se alicerça. Como explicar essa permanência? Parece-me que isso ocorre porque ela é mais do que um texto científico. Ao salientar a especificidade das relações fetichizadas do capital, a análise retoma a antiga questão do ser social e

de sua historicidade, afirma o filósofo. E termina com um desafio: A questão hoje em dia é mais do que teórica.

Little Book of Book Making Charlotte Rivers, 2014-08-12 Making books by hand has never been cooler, with this inspiring guide to 30 top bookmakers working today, plus 21 tutorials for essential techniques to make your own books. Crafters, artists, writers, and book lovers can't resist a beautifully handbound book. Packed with wonderfully eclectic examples, this book explores the intriguing creative possibilities of bookmaking as a modern art form, including a wide range of bindings, materials, and embellishments. Featured techniques include everything from Coptic to concertina binding, as well as experimental page treatments such as sumi-e ink marbling and wheat paste. In addition to page after page of inspiration from leading contemporary binderies, *Little Book of Bookmaking* includes a practical section of 21 easy-to-follow illustrated tutorials.

The Intellectual History of Europe Friedrich Heer, 1966

The Kiss of Lamourette Robert Darnton, 1990 This is a book about history, the media, and the history of the media. In four parts this book will go through how the past operates as an undercurrent in the present, analyze the operation of the media by specific case studies, outline a particular discipline; the history of the book, which provides a historical dimension to media studies, and lastly, to move outward from those considerations to a broad discussion of history itself and of history's neighbors within the human sciences.

Scribes and Illuminators Christopher De Hamel, British Museum, 1992-01-01 Looks at the work of medieval paper, parchment, and ink makers, scribes, illuminators, binders, and booksellers

First Philosophy Edmund Husserl, 2019-01-04 This volume presents, for the first time in English, Husserl's seminal 1923/24 lecture course *First Philosophy* (*Erste Philosophie*) together with a selection of material from the famous research manuscripts of the same time period. The lecture course is divided into two systematic, yet interrelated parts ("Critical History of Ideas" and "Theory of the Phenomenological Reduction"). It has long been recognized by scholars as among the most important of the many lecture courses he taught in his career. Indeed it was deemed as crucially important by Husserl himself, who composed it with a view toward eventual publication. It is unsurprising, then, that *First Philosophy* is the only lecture course that is consistently counted among his major works. In addition to furnishing valuable insights into Husserl's understanding of the history of philosophy, *First Philosophy* is his most sustained treatment of the phenomenological reduction, the central concept of his philosophical methodology. The selection of supplemental texts expands on the topics treated in the lectures, but also add other themes from Husserl's vast oeuvre. The manuscript material is especially worthwhile, because in it, Husserl offers candid self-criticisms of his publicly enunciated words, and also makes forays into

areas of his philosophy that he was loath to publicize, lest his words be misunderstood. As Husserl's position as a key contributor to contemporary thought has, with the passage of time, become increasingly clear, the demand for access to his writings in English has steadily grown. This translation strives to meet this demand by providing English-speaking readers access to this central Husserlian text. It will be of interest to scholars of Husserl's work, non-specialists, and students of phenomenology.

Handmade Books Ray Hemachandra, 2010 Bookmaking is one of today's fastest-growing crafts, and this on-the-page gallery presents the unlimited potential of the form, from leather-tooled covers and handmade papers to exotic bindings. The talented contributors include Jeanne Germani, David Hodges, Laura Wait, and a host of other artists. With nearly 100 selections taken from the best-selling 500 Handmade Books, this pocket-sized book will delight handmade-book devotees

A History of Pythagoreanism Carl A. Huffman, 2014-04-24 This is a comprehensive, authoritative and innovative account of Pythagoras and Pythagoreanism, one of the most enigmatic and influential philosophies in the West. In twenty-one chapters covering a timespan from the sixth century BC to the seventeenth century AD, leading scholars construct a number of different images of Pythagoras and his community, assessing current scholarship and offering new answers to central problems. Chapters are devoted to the early Pythagoreans, and the full breadth of Pythagorean thought is explored including politics, religion, music theory, science, mathematics and magic. Separate chapters consider Pythagoreanism in Plato, Aristotle, the Peripatetics and the later Academic tradition, while others describe Pythagoreanism in the historical tradition, in Rome and in the pseudo-Pythagorean writings. The three great lives of Pythagoras by Diogenes Laertius, Porphyry and Iamblichus are also discussed in detail, as is the significance of Pythagoras for the Middle Ages and Renaissance.

The Book of the Knight Zifar Charles L. Nelson, 2021-12-14 The Book of the Knight Zifar (or Cifar), Spain's first novel of chivalry, is the tale of a virtuous but unfortunate knight who has fallen from grace and must seek redemption through suffering and good deeds. Because of a curse that repeatedly deprives him of that most important of knightly accoutrements—his horse—Zifar and his family must flee their native India and wander through distant lands seeking to regain their rank and fortune. A series of mishaps divides the family, and the novel follows their separate adventures—alternatively heroic, comic, and miraculous—until at length they are reunited and their honor restored. The anonymous author of Zifar based his early fourteenth-century novel on the medieval story of the life of St. Eustacius, but onto this trunk he grafted a surprising variety of narrative types: Oriental tales of romance and magic, biblical stories, moralizing fables popular since the Middle Ages, including several from Aesop, and instructions in the rules of proper knightly conduct. Humor in the form of puns, jokes, and old proverbs also runs through the novel. In particular, the foolish/wise Knave offers a comic contrast to the heroic Knight, whom he must continually rescue through the application of common sense. Zifar was to have an important influence on later Spanish literature, and perhaps on Cervantes' great tale of a knight and his squire, Don

Quixote. All those with an interest in Spanish literature and medieval life will be grateful for Mr. Nelson's excellent translation, which brings to life this extraordinary early novel.

Roots of Brazil Sérgio Buarque de Holanda, 2012-10-15 Sérgio Buarque de Holanda's *Roots of Brazil* is one of the iconic books on Brazilian history, society, and culture. Originally published in 1936, it appears here for the first time in an English language translation with a foreword, *Why Read Roots of Brazil Today?* by Pedro Meira Monteiro, one of the world's leading experts on Buarque de Holanda. *Roots of Brazil* focuses on the multiple cultural influences that forged twentieth-century Brazil, especially those of the Portuguese, the Spanish, other European colonists, Native Americans, and Africans. Buarque de Holanda argues that all of these originary influences were transformed into a unique Brazilian culture and society—a transition zone. The book presents an understanding of why and how European culture flourished in a large, tropical environment that was totally foreign to its traditions, and the manner and consequences of this development. Buarque de Holanda uses Max Weber's typological criteria to establish pairs of ideal types as a means of stressing particular characteristics of Brazilians, while also trying to understand and explain the local historical process. Along with other early twentieth-century works such as *The Masters and the Slaves* by Gilberto Freyre and *The Colonial Background of Modern Brazil* by Caio Prado Júnior, *Roots of Brazil* set the parameters of Brazilian historiography for a generation and continues to offer keys to understanding the complex history of Brazil. *Roots of Brazil* has been published in Italian, Spanish, Japanese, Chinese, German, and French. This long-awaited English translation will interest students and scholars of Portuguese, Brazilian, and Latin American history, culture, literature, and postcolonial studies.

Bookbinding, and the Care of Books Douglas Cockerell, 1971

The Adventures of China Iron Gabriela Cabezón Cámara, 2019-11-14 Shortlisted for the International Booker Prize 2020 1872. The pampas of Argentina. China is a young woman eking out an existence in a remote gaucho encampment. After her no-good husband is conscripted into the army, China bolts for freedom, setting off on a wagon journey through the pampas in the company of her new-found friend Liz, a settler from Scotland. While Liz provides China with a sentimental education and schools her in the nefarious ways of the British Empire, their eyes are opened to the wonders of Argentina's richly diverse flora and fauna, cultures and languages, as well as to the ruthless violence involved in nation-building. This subversive retelling of Argentina's foundational gaucho epic Martín Fierro is a celebration of the colour and movement of the living world, the open road, love and sex, and the dream of lasting freedom. With humour and sophistication, Gabriela Cabezón Cámara has created a joyful, hallucinatory novel that is also an incisive critique of national myths.

Non-adhesive binding Keith A. Smith, 1990

Books and the Sciences in History Marina Frasca-Spada, Nicholas Jardine, 2000-11-02 This book, published in 2000, examines the intersection between science and books from early medieval times to the nineteenth century.

Creating the Perfect Design Brief Peter L. Phillips, 2012-07-01 In the only book of its kind, now revised and updated with the latest research on the topic, veteran design consultant Peter L. Phillips offers the tools for success gained from nearly thirty years of developing corporate and brand identity programs. Readers will discover the most effective formats for design briefs, how to structure the best possible team, what distinguishes a great design brief from an adequate one, how to use the brief in project tracking, as a measuring tool, as a means of getting approval for a design solution, and much, much more. By covering all of the essential elements of an effective design brief, this unique and empowering guide will help you to ensure that the goals of your corporate design strategy are met.
