A NOVA LEI DO MANDADO DE SEGURANÇA CASSIO SCARPINELLA BUENO, 2017-10-06 Este livro quer propor uma interpretação da Lei n. 12.016/2009, não só informativa mas crítica, que permita o seu adequado uso no dia a dia do foro, viabilizando que o mandado de segurança cumpra o seu papel constitucionalmente reservado; que permita ao magistrado, ao detectar abusividade ou ilegalidade a direito - qualquer que seja ele: individual ou coletivo; tributário ou previdenciário; titularizado por funcionário ou servidor público -, protegê-lo adequadamente - e, se for o caso, prontamente -, porque, não fosse assim, não haveria razão para se ocupar com o instituto. A Constituição Federal não quer um Judiciário que se limite a declarar direitos; quer um judiciário que os realize sensível e concretamente. Mais ainda quando se trata de mandado de segurança.

Coleção Defensoria Pública - Ponto a Ponto: Direito Processual Penal Marcos Vinicius Manso Lopes Gomes, Rachel Gonçalves Silva, Maurilio Casas Maia, 2020-09-04 Data de fechamento: 24/06/2020 Esta obra aborda os pontos de Direito Processual Penal dos principais editais de concurso da Defensoria Pública, de modo a facilitar e sistematizar os estudos dos candidatos para os certames da Instituição. Analisam-se, ponto a ponto, os editais, com abordagem das correntes doutrinárias, posições dos Tribunais Superiores e da Defensoria Pública, exemplificando por meio de questões de provas de ingresso para a Defensoria Pública aplicadas em diversos estados. Os autores, defensores públicos com experiência na área criminal em seus estados, Amazonas e Rio de Janeiro, aproximam o candidato das Defensorias Públicas ao longo do texto, por meio de exemplos concretos, especialmente, nas êdicas dos autores. Busca-se, então, sempre levando em consideração o cotidiano dos defensores públicos, uma otimização dos estudos do conteúdo que poderá ser cobrado nas provas da Defensoria Pública. Assim, pontos importantes foram considerados, por meio do viés do Estado Defensor, tais como a investigação criminal, princípios do processo penal, ação penal, meios de obtenção de prova, jurisdição e competência, dentre outros. Temas extremamente atuais também permeiam esta obra, a exemplo do ípacote Anticrime, questões envolvendo o ícoronavírus, e a atuação como ícustos vulnerabilis. Desse modo, de forma inovadora, esta obra tem como proposta direcionar o candidato que almeja ingressar na Defensoria Pública, através dos pontos do edital e com explicações dos temas com embasamento jurisprudencial, legal e doutrinário, sempre com o viés defensorial a partir do ponto de vista do Estado Defensor.

A Tutela Processual dos Direitos Individuais Uniformes Ricardo Felipe Rodrigues Macieira, O título da obra já aponta o quanto complexos são alguns dos temas que Ricardo trabalhou: A tutela processual dos direitos individuais uniformes: as técnicas de coletivização entre a aglutinação de pretensões e a aglutinação de questões. Não se preocupem com alguma

difículdade de compressão do título, pois a obra está em linguagem clara e precisa para que se tenha uma dimensão de temas que Ricardo entende necessários para chegar em suas considerações finais com uma pesquisa de ponta que muito orgulha a comunidade acadêmica. De igual forma, Poder Judiciário pode-se sentir muito bem representado por estudiosos como Ricardo que resgatam, ainda mais, a credibilidade deste tão importante e fundamental Poder. Não foi nenhuma surpresa, então, a banca de mestrado, composta pelos experientes professores na matéria Camilo Zufelato, Beclaute Oliveira Silva e Vitor de Paula Ramos, por mim presidida, terem atribuído não só a aprovação, por unanimidade, mas também o voto de louvor com recomendação para a publicação.

Processo Penal Fundamental - Volume II Pablo Farias Souza Cruz, Karine Giotti Souza Cruz, 2022-06-08 O presente trabalho tem por finalidade desenvolver o Direito Processual Penal de forma contextualizada, de modo a permitir ao leitor uma visão concatenada do Processo Penal com os demais ramos do direito. Assim, pretende-se analisar o atual panorama doutrinário e jurisprudencial da matéria à luz do arcabouço jurídico-constitucional, sistematizando a análise do CPP atual com o projeto que visa substituí-lo. Com inserções comparativas do texto atual e do texto do projeto do novo CPP, pretende-se apresentar um processo penal moderno e um processo penal em perspectiva. Reescrita após a edição do CPC de 2015, a obra propõe um diálogo de fontes que respeite a natureza do processo penal, promovendo estudo legislativo, doutrinário e jurisprudencial integrado com o Direito Constitucional, Direito Penal, Criminologia e com outras ciências processuais, tais como o direito processual penal militar e o direito processual civil. No presente volume se aprofundará a temática mais procedimental do processo penal, abordando prioritariamente o processo judicial penal propriamente dito, com ênfase nos seguintes temas: Provas, Procedimentos, Atos processuais, Nulidades, Sentença, Coisa Julgada, Recursos e Meios de Impugnação, todos já à luz do pacote anticrime e dos vetos posteriormente derrubados, formadores de um perfil de difícil identificação dogmática, dada a aparente bipolaridade legislativa.

Transconstitutionalism Marcelo Neves, 2013-05-01 Transconstitutionalism is a concept used to describe what happens to constitutional law when it is emancipated from the state, in which can be found the origins of constitutional law. Transconstitutionalism does not exist because a multitude of new constitutions have appeared, but because other legal orders are now implicated in resolving basic constitutional problems. A transconstitutional problem entails a constitutional

issue whose solution may involve national, international, supranational and transnational courts or arbitral tribunals, as well as native local legal institutions. Transconstitutionalism does not take any single legal order or type of order as a starting-point or ultima ratio. It rejects both nation-statism and internationalism, supranationalism, transnationalism and localism as privileged spaces for solving constitutional problems. The transconstitutional model avoids the dilemma of 'monism versus pluralism'. From the standpoint of transconstitutionalism, a plurality of legal orders entails a complementary and conflicting relationship between identity and alterity: constitutional identity is rearticulated on the basis of alterity. Rather than seeking a 'Herculean Constitution', transconstitutionalism tackles the many-headed Hydra of constitutionalism, always looking for the blind spot in one legal system and reflecting it back against the many others found in the world's legal orders.

Mapping Experiences Jim Kalbach, 2016-04-25 Customers who have inconsistent, broken experiences with products and services are understandably frustrated. But it's worse when people inside these companies can't pinpoint the problem because they're too focused on business processes. This practical book shows your company how to use alignment diagrams to turn valuable customer observations into actionable insight. With this unique tool, you can visually map your existing customer experience and envision future solutions. Product and brand managers, marketing specialists, and business owners will learn how experience diagramming can help determine where business goals and customer perspectives intersect. Once you're armed with this data, you can provide users with real value. Mapping Experiences is divided into three parts: Understand the underlying principles of diagramming, and discover how these diagrams can inform strategy Learn how to create diagrams with the four iterative modes in the mapping process: setting up a mapping initiative, investigating the evidence, visualizing the process, and using diagrams in workshops and experiments See key diagrams in action, including service blueprints, customer journey maps, experience maps, mental models, and spatial maps and ecosystem models

The Sense of Appropriateness Klaus Günther, 1993-01-01 Günther's book demonstrates that most objections to moral and legal principles are directed not against the validity of principles but against the manner of their application. If one distinguishes between the justification of a principle and its appropriate application, then the claim that the application of the principle in each individual case follows automatically from its universal justification proves to be a misunderstanding. Günther develops this distinction with the help of Habermas's discourse theory of morality. He then employs it to extend Kohlberg's theory of moral development and to defend this against Gilligan's critique. In the third and fourth parts of the book, Günther shows--in debate with Hare, Dworkin, and others--how argumentation on the appropriate application of norms and principles in morality and law is possible.

Constitutional Courts and Deliberative Democracy Conrado Mendes, 2013-12 It is often argued that courts are better suited for impartial deliberation than partisan legislatures, and that this capacity justifies handing them substantial powers of

judicial review. This book provides a thorough analysis of those claims, introducing the theory of deliberative capacity and its implications for institutional design.

Restorative Justice and the Law Lode Walgrave, 2012-12-06 Restorative justice has developed rapidly from being a barely known term to occupying a central role in debates on the future of criminal justice. But as it has become part of the mainstream of debate, so new tensions and issues have emerged. One of the most crucial issues is to find an appropriate combination of restorative justice, based essentially on informal deliberation, and the law. The purpose of this book is to analyse the several dimensions to this issue. It explores the social and ethical foundations of restorative justice, seeks to position it in relation to both rehabilitation and punishment, and examines the possibility of developing and incorporating restorative justice as the mainstream response to crime in terms of the principles of constitutional democracy. Amongst the questions it addresses are the following: How are informal processes to be juxtaposed with formal procedures? What is the appropriate relationship between voluntarism and coercion? How can the procedures and practices of restorative justice be combined with legal standards, safeguards and precepts? How can one balance restorative responses with legally sanctioned punishment? In this book a distinguished team of contributors consider this crucial set of relationships between restorative justice and the law, building upon papers and discussions at the fifth international restorative justice conference in Leuven, Belgium, in September 2001. restorative justice has grown rapidly throughout the world this book addresses the central issue of relationship of restorative justice to existing law and legal systems chapters from world leading authorities
