Voices from the Favelas Fernanda Amaral,2021-03-16 The mainstream media in Brazil portrays favelas (unregulated low-income neighbourhoods) in a negative light. This has been the case since their emergence over a century ago. Voices from the Favelas navigates through the contemporary representation of the favelas in the established media, discussing how this partial representation impacts issues of identity and social segregation, the legitimization of structural violence in those sites, and providing an account of the recent emergence of digital social networks as “counterpublics”. In order to understand the struggle against the characterisation of the favela as a site dominated by violence (a framework which has been disseminated on a global scale and accepted as the norm), this book will take its readers inside the mindset of the favela media activists, examining the production of information and the organisation of the residents as they resist and challenge the status quo. Are the activists able to counteract the official narrative in the struggles against misrepresentation and social invisibility, or is the mainstream version of the favela still strong enough to help in the legitimization of the institutionalised violence?

Cartographies of Place Michael Darroch,Janine Marchessault,2014-03-01 Media are incorporated into our physical environments more dramatically than ever before - literally opening up new spaces of interactivity and connection that transform the experience of being in the city. Public gatherings and movement, even the capabilities of democratic ideology, have been redefined. Urban Screens, mobile media, new digital mappings, and ambient and pervasive media have all created new ecologies in cities. How do we analyze these new spaces? Recognition of the mutual histories and research programs of urban and media studies is only the beginning. Cartographies of Place develops new vocabularies and methodologies for engaging with the distinctive situations and experiences created by media technologies which are reshaping, augmenting, and expanding urban spaces. The book builds upon the rich traditions and insights of a post-war generation of humanist scholars, media theorists, and urban planners. Authors engage with different historical and contemporary currents in urban studies which share a common concern for media forms, either as research tools or as the means for discerning the expressive nature of city spaces around the world. All of the media considered here are not simply free floating, but are deeply embedded in the geopolitical, economic, and material contexts in which they are used. Cartographies of Place is

exemplary of a new direction in interdisciplinary media scholarship, opening up new ways of studying the complexities of cities and urban media in a global context.

Journalism, Power and Investigation Stuart Price, 2019-01-23 Journalism, Power and Investigation presents a contemporary, trans-national analysis of investigative journalism. Beginning with a detailed introduction that examines the relationship between this form of public communication and normative conceptions of democracy, the book offers a selection of spirited contributions to current debates concerning the place, function, and political impact of investigative work. The 14 chapters, produced by practising journalists, academics, and activists, cover a range of topics, with examples drawn from the global struggle to produce reliable, in-depth accounts of public events. The collection brings together a range of significant investigations from across the world. These include an assignment conducted in the dangerous sectarian environment of Iraq, close engagement with Spain's Memory Movement, and an account of the work of radical charity Global Witness. Other chapters examine the relationship between journalists and state/corporate power, the troubled political legacy of WikiLeaks, the legal constraints on investigative journalism in the UK, and the bold international agenda of the investigative collective The Ferret. This material is accompanied by other analytical pieces on events in Bermuda, Brazil, and Egypt. Investigative journalism is a form of reportage that has long provided a benchmark for in-depth, critical interventions. Using numerous case studies, Journalism, Power and Investigation gives students and researchers an insight into the principles and methods that animate this global search for truth and justice.

The Demographic Dividend and the Power of Youth Eirliani Abdul Rahman, Elsa Marie D'Silva, Sonja Peteranderl, 2021-02-19 As fertility rates decrease, a country's working-age population grows larger relative to the young dependent population. With more people in the labor force and fewer children to support, a country has a window of opportunity for rapid economic growth if the right social and economic investments and policies are made in health, education, governance and the economy. Conversely, research shows that resource requirements to support a large population of children and youth can depress the pace of economic growth and prevent needed investments in human capital. The discourse on responding to this population growth frequently excludes the youth. The result can be an apathetic community of young people who withdraw from participation in political and democratic processes. The book is a compilation of articles that address the issue and highlight solutions from different parts of the world, from members of the Global Diplomacy Lab to external contributors: how they see their work promoting, enhancing and contributing to harvesting the demographic dividend.

The Social Life of Economic Inequalities in Contemporary Latin America Margit Ystanes, Iselin Åsedotter Strønen, 2017-10-25 This book is open access under a CC BY 4.0 license. This edited volume examines how economic processes have worked upon social lives and social realities in Latin America during the past decades. Through tracing the

effects of the neoliberal epoch into the era of the so-called pink tide, the book seeks to understand to what extent the turn to the left at the start of the millennium managed to challenge historically constituted configurations of inequality. A central argument in the book is that in spite of economic reforms and social advances on a range of arenas, the fundamental tenants of socio-economic inequalities have not been challenged substantially. As several countries are now experiencing a return to right-wing politics, this collection helps us better understand why inequalities are so entrenched in the Latin American continent, but also the complex and creative ways that it is continuously contested. The book directs itself to students, scholars and anyone interested in Latin America, economic anthropology, political anthropology, left-wing politics, poverty and socio-economic inequalities.

Criteria and Indicators of Sustainability in Community Managed Forest Landscapes: An Introductory Guide

Bill Ritchie, Cynthia McDougall, Mandy Haggith, Nicolette Burford de Oliveira, 2000-01-01 Community managed forest systems embody a considerable portion of the wisdom, knowledge, and practical skills and management necessary for the sustainability of forest resources globally. These systems, however, are under threat in many ways, including from the rapid rate of change of their political, socio-economic, and biophysical contexts. Adapting forest management sufficiently quickly and effectively to meet these changes is both urgent and very challenging. This Guide introduces criteria and indicators of sustainability for community managed forest landscapes (CMF C&I) as a potential learning and communication tool that can help meet that challenge. It draws on CIFOR's collaborative research on CMF C&I in Brazil, Indonesia, and Cameroon to propose a flexible step-by-step approach to developing and implementing self or collaborative forest monitoring systems, and gives examples of C&I developed by communities in these countries. The approach is targeted to communities and their partners in forest management, such as NGOs, government, or development projects, who are seeking strategies to improve local well-being and forest sustainability through more effective learning, collaboration, and decision-making in local forest management.

Rene Silva, ativismo digital e ação comunitária Rene Silva, 2020-10-21 Cabeças da Periferia revela, através de entrevistas, o universo e as ideias de artistas-ativistas, e como seus projetos e ações reinventam os territórios. Em Rene Silva, ativismo digital e ação comunitária, somos apresentados a este jovem comunicador, a mente perspicaz por trás do Voz das Comunidades, um veículo de comunicação horizontal comunitária que hoje atua em várias comunidades cariocas e informa sobre o cotidiano e as questões pertinentes às favelas, articulando pontes entre os moradores, o poder público, a iniciativa privada e a grande mídia, promovendo uma série de ações humanitárias e culturais. Em novembro de 2010, enquanto o Brasil acompanhava pela TV a ocupação do Complexo do Alemão pelas Forças Armadas e pela Polícia Militar, através da UPP, um jovem morador, aos 16 anos, tuitava em tempo real – e em primeira mão – o passo a passo da operação policial. Essa iniciativa, aparentemente trivial, revolucionou a forma de se fazer jornalismo a respeito do que se passa nas favelas cariocas e deu voz e protagonismo aos moradores da comunidade. Nesta entrevista, Rene Silva trata dos mais diversos temas como inclusão e ativismo digital, desigualdade social, a importância de agir com e para a comunidade, a multiplicação de seu projeto pioneiro, o poder da tecnologia e a profusão de talentos que existem nas favelas a despeito das condições adversas. Nesta conversa com Rene Silva, participaram os comentaristas convidados Paulo Sampaio, jornalista, Fred Coelho, historiador e pesquisador e a editora Isabel Diegues. A gente coloca o morador como protagonista. Muito diferente do que a grande mídia sempre faz, de narrar, de contar história. A narrativa da grande mídia é a partir da assessoria de imprensa da Polícia Militar, do governo, da Secretaria de Educação, da secretaria disso... E a gente não. A gente constrói uma narrativa a partir da fala do morador, a partir da participação daquela pessoa da comunidade. Então a pessoa se sente protagonista daquele projeto, sente que faz parte daquilo. - Rene Silva

Vale do Ribeira: A Voz e a Vez das Comunidades Negras Mary Francisca do Careno, 2021-08-12 A obra apresenta a linguagem e o modo de viver rural de descendentes de africanos, moradores em bairros remanescentes de quilombos, distantes cerca de 200 km da capital do estado mais rico do Brasil e que conservam, há mais de dois séculos, um modo de ser e de ver o mundo, de organizar suas lutas e continuar insistentemente resistindo às investidas externas contra os seus

territórios, conquistados com o sangue de seus ancestrais. Por meio de suas vozes, em suas narrativas, reproduzem esse modo de viver que pode ser percebido na ênfase ao contarem seus causus, quando recorrem a expressões que muitas vezes chamam atenção por fugirem do falar cotidiano do brasileiro, quando os personagens tecem suas tramas na mata, nos rios, nas bifurcações das estradas, fazendo-se ora de expectadores, ora repentinamente tornando-se eles próprios os protagonistas do fato narrado. O trabalho descreve não só a linguagem em uso, como aspectos históricos e socioculturais dessa região rural, mas também, e a partir deles, contribui para o debate sobre duas questões fundamentais: que tipo de português e de dados históricos se ensinam e/ou se deveriam ensinar nas escolas rurais da região? Em que situação de desvantagem encontram-se os falantes de dialetos estigmatizados no processo de ensino/aprendizagem? Esta segunda edição é acrescida de dois glossários, o que enriquece a versão: um formado de palavras dicionarizadas, cujos significados divergem dos encontrados nos dicionários consultados; o outro de palavras e expressões que não são dicionarizadas, são próprias da região cujos significados exigiram duas outras viagens na época para que os próprios informantes dessem a sua versão. Interessante como eles se divertiam ao saberem que a autora – uma professora vinda de tão longe – não sabia dizer o que significava. Chegavam a chamar os vizinhos para contarem o quanto eram sabidos...

Vozes de resistência e combate José Marques de Melo, Osvando José Morais, 2010

Art and Social Justice Mike Hajimichael, 2015-02-05 This book is a collection of articles that reflect on various connectivities between art and social justice and media which are pertinent to studying contemporary societies. How different forms of media and art, in the broadest possible meaning of these terms, reflect on, relate to, and campaign for social justice is an important topic to consider as artists, academics and activists. The subject matter of the book is also contextualized, with attention being paid to historical, cultural and communication factors, and with chapters referencing situations and collaborations in Brazil, Cyprus, Greece and South Africa. This is the first time that such a broad range of contexts are being considered together within the pursuit of studies on art and social justice. Furthermore, this book concentrates on how different art forms are manifest, in relation to social justice issues in an ever-changing world mediated by the Internet. How much mobilization happens online through art and media, and how much happens in 'reality' (offline) are issues explored at length with regard to youth and participation in social change.
