This publication contains the proceedings of a satellite meeting on this topic, organized by the Management and Marketing Section of IFLA and held in Sao Paulo, Brazil in August 2004. It contains papers from more general points of views such as the democratization of access to digital information to more specific questions such as virtual libraries and new services, not forgetting user and librarian education, web site design, more specialized information, etc. The readers of these proceedings will find along these pages a very stimulating content which will guide them towards better services for virtual clients. Papers are presented in the original language of their presentation (Portuguese, French, Spanish and English) with summaries in these four languages.

Transportation Amid Pandemics Junyi Zhang, Yoshitsugu Hayashi, 2022-09-18 Transportation Amid Pandemics: Practices and Policies is the first reference on pandemics (especially COVID-19) in the context of transport, logistics, and supply chains. This book investigates the relationships between pandemics and transport and evaluates impacts of COVID-19 and effects of policy responses to address them. Is It Safe? Protecting Your Computer, Your Business, and Yourself Online Michael R. Miller, 2008-06-06 Is It Safe? PROTECTING YOUR COMPUTER, YOUR BUSINESS, AND YOURSELF ONLINE IDENTITY THEFT. DATA THEFT. INTERNET FRAUD. ONLINE SURVEILLANCE. EMAIL SCAMS. Hacks, attacks, and viruses. The Internet is a dangerous place. In years past, you could protect your computer from malicious activity by installing an antivirus program and activating a firewall utility. Unfortunately, that's no longer good enough; the Internet has become a much darker place, plagued not only by rogue software but also by dangerous criminals and shadowy government agencies. Is It Safe? addresses the new generation of security threat. It presents information about each type of threat and then discusses ways to minimize and recover from those threats. Is It Safe? differs from other security books by focusing more on the social aspects of online security than purely the technical aspects. Yes, this book still covers topics such as antivirus programs and spam blockers, but it recognizes that today's online security issues are more behavioral in nature-phishing schemes, email scams, and the like. Are you being scammed? Learn how to spot the newest and most insidious computer security threats-fraudulent retailers, eBay

scammers, online con artists, and the like. Is your identity safe? Avoid being one of the nine million Americans each year who have their identities stolen. Today's real Internet threats aren't viruses and spam. Today's real threat are thieves who steal your identity, rack up thousands on your credit card, open businesses under your name, commit crimes, and forever damage your reputation! Is Big Brother watching? Get the scoop on online tracking and surveillance. We examine just who might be tracking your online activities and why. Is your employer watching you? How to tell when you're being monitored; and how to determine what is acceptable and what isn't. Michael Miller has written more than 80 nonfiction books over the past two decades. His best-selling books include Que's YouTube 4 You, Googlepedia: The Ultimate Google Resource, iPodpedia: The Ultimate iPod and iTunes Resource, and Absolute Beginner's Guide to Computer Basics. He has established a reputation for clearly explaining technical topics to nontechnical readers and for offering useful real-world advice about complicated topics.

An Annotated Bibliography for Taiwan Film Studies Jim Cheng, James Wicks, Sachie Noguchi, 2016-04-19 Compiled by two skilled librarians and a Taiwanese film and culture specialist, this volume is the first multilingual and most comprehensive bibliography of Taiwanese film scholarship, designed to satisfy the broad interests of the modern researcher. The second book in a remarkable three-volume research project, *An Annotated Bibliography for Taiwan Film Studies* catalogues the published and unpublished monographs, theses, manuscripts, and conference proceedings of Taiwanese film scholars from

the 1950s to 2013. Paired with *An Annotated Bibliography for Chinese Film Studies* (2004), which accounts for texts dating back to the 1920s, this series brings together like no other reference the disparate voices of Chinese film scholarship, charting its unique intellectual arc. Organized intuitively, the volume begins with reference materials (bibliographies, cinematographies, directories, indexes, dictionaries, and handbooks) and then moves through film history (the colonial period, Taiwan dialect film, new Taiwan cinema, the 2/28 incident); film genres (animated, anticommunist, documentary, ethnographic, martial arts, teen); film reviews; film theory and technique; interdisciplinary studies (Taiwan and mainland China, Taiwan and Japan, film and aboriginal peoples, film and literature, film and nationality); biographical materials; film stories, screenplays, and scripts; film technology; and miscellaneous aspects of Taiwanese film scholarship (artifacts, acts of censorship, copyright law, distribution channels, film festivals, and industry practice). Works written in multiple languages include transliteration/romanized and original script entries, which follow universal AACR-2 and American cataloguing standards, and professional notations by the editors to aid in the use of sources.
