Searching for Madre Matiana Edward Wright-Rios,2014-12-01 In the mid-nineteenth century prophetic visions attributed to a woman named Madre Matiana roiled Mexican society. Pamphlets of the time proclaimed that decades earlier a humble laywoman foresaw the nation's calamitous destiny—foreign invasion, widespread misery, and chronic civil strife. The revelations, however, pinpointed the cause of Mexico's struggles: God was punishing the nation for embracing blasphemous secularism. Responses ranged from pious alarm to incredulous scorn. Although most likely a fiction cooked up amid the era's culture wars, Madre Matiana's persona nevertheless endured. In fact, her predictions remained influential well into the twentieth century as society debated the nature of popular culture, the crux of modern nationhood, and the role of women, especially religious women. Here Edward Wright-Rios examines this much-maligned—and sometimes celebrated—character and her position in the development of a nation.

Introduction to Functional Programming Using Haskell Richard Bird,1998 After the success of the first edition,

Introduction to Functional Programming using Haskell has been thoroughly updated and revised to provide a complete grounding in the principles and techniques of programming with functions. The second edition uses the popular language Haskell to express functional programs. There are new chapters on program optimisation, abstract datatypes in a functional setting, and programming in a monadic style. There are complete new case studies, and many new exercises. As in the first edition, there is an emphasis on the fundamental techniques for reasoning about functional programs, and for deriving them systematically from their specifications. The book is self-contained, assuming no prior knowledge of programming and is suitable as an introductory undergraduate text for first- or second-year students.

Utile sia per l'esperto del settore che per il semplice appassionato. Imperdibile!

Pilgrimage to Broken Mountain Alan R. Sandstrom, Pamela Effrein Sandstrom, 2023-01-20 An ethnographic study based on decades of field research, Pilgrimage to Broken Mountain explores five sacred journeys to the peaks of venerated mountains undertaken by Nahua people living in northern Veracruz, Mexico. Punctuated with elaborate ritual offerings dedicated to the forces responsible for rain, seeds, crop fertility, and the well-being of all people, these pilgrimages are the highest and most elaborate form of Nahua devotion and reveal a sophisticated religious philosophy that places human beings in intimate contact with what Westerners call the forces of nature. Alan and Pamela Sandstrom document them for the younger Nahua generation, who live in a world where many are lured away from their communities by wage labor in urban Mexico and the United States. Pilgrimage to Broken Mountain contains richly detailed descriptions and analyses of ritual procedures as well as translations from the Nahuatl of core myths, chants performed before decorated altars, and statements from participants. Particular emphasis is placed on analyzing the role of sacred paper figures that are produced by the thousands for each pilgrimage. The work contains drawings of these cuttings of spirit entities along with hundreds of color photographs illustrating how they are used throughout the pilgrimages. The analysis reveals the monist philosophy that underlies Nahua religious practice in which altars, dancing, chanting, and the paper figures themselves provide direct access to the sacred. In the context of their pilgrimage traditions, the ritual practices of Nahua religion show one way that people interact effectively with the forces responsible for not only their own prosperity but also the very survival of humanity. A magnum opus with respect to Nahua religion and religious practice, Pilgrimage to Broken Mountain is a significant

contribution to several fields, including but not limited to Indigenous literatures of Mesoamerica, Nahuatl studies, Latinx and Chicana studies, and religious studies.
