Fiction as Method Jon K Shaw, Theo Reeves-Everson, 2017-04-07 See the world through the eyes of a search engine, if only for a millisecond; throw the workings of power into sharper relief by any media necessary; reveal access points to other worlds within our own. In the anthology *Fiction as Method*, a mixture of new and established names in the fields of contemporary art, media theory, philosophy, and speculative fiction explore the diverse ways fiction manifests, and provide insights into subjects ranging from the hive mind of the art collective Orphan Drift to the protocols of online self-presentation. With an extended introduction by the editors, the book invites reflection on how fictions proliferate, take on flesh, and are carried by a wide variety of mediums—including, but not limited to, the written word. In each case, fiction is bound up with the production and modulation of desire, the enfolding of matter and meaning, and the blending of practices that cast the existing world in a new light with those that participate in the creation of new openings of the possible. Contributors Justin Barton, Delphi Carstens & Mer Roberts, Tim Etchells, Matthew Fuller, David Garcia, Dora García, M. John Harrison, Simon O'Sullivan, Erica Scourti, Jon K Shaw and Theo Reeves-Everson

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and

enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Sacred Shore Janette Oke, T. Davis Bunn, 2000-02 A historical epic brings together a group of banished French Acadians, a lonely British nobleman, and a couple on the verge of separation

The Meeting Place (Song of Acadia Book #1) Janette Oke, T. Davis Bunn, 1999-04-01 A Chance Encounter Forever Changed Their Lives--and Destinies. Crafted by two masters of inspirational fiction--Janette Oke and T. Davis Bunn--and combining the engaging historical settings, rich characterization, and heartwarming messages quintessential to both authors, The Meeting Place is another timeless story for you to cherish. Set along the rugged coastline of 18th century Canada in what was then called Acadia (now Nova Scotia and New Brunswick), The Meeting Place re-creates a world that was home to native Indians, French settlers, and English garrisons. Such diverse populations did not live in accord, however. Instead, they

were isolated within their own groups by a brewing political tension under the difficult English rule. Amid such chaotic times two women, both about to become brides and both trying to live lives of quiet peace, meet in a lush field of wildflowers. Louisa, a Frenchwoman, and Catherine, who is English, continue to meet secretly through the seasons, sharing both friendship and growing faith. The outside world does not mirror their own tranquil happiness, and the dreaded crackdown by the English throne threatens far more than their growing bond. In the face of a heart-wrenching dilemma, Louisa and Catherine strive to maintain their faith and cling to their dreams of family and home. Winner of the Christy Award, presented by the Christian Bookseller Association to honor the best in Christian fiction.

ITER: The Giant Fusion Reactor Michel Claessens, 2019-10-17 This book provides for the first time an insider's view into ITER, the biggest fusion reactor in the world, which is currently being constructed in southern France. Aimed at bringing the "energy of the stars" to earth, ITER is funded by the major economic powers (China, the EU, India, Japan, Korea, Russia and the US). Often presented as a "nuclear but green" energy source, fusion could play an important role in the future electricity supply. But as delays accumulate and budgets continue to grow, ITER is currently a star partially obscured by clouds. Will ITER save humanity by providing a clean, safe and limitless source of energy, or is it merely a political showcase of cutting-edge technology? Is ITER merely an ambitious research project and partly a PR initiative driven by some politically connected scientists? In any case, ITER has already helped spur on rival projects in the US, Canada and the UK. This book offers readers a behind-the-scenes look at this controversial project, which France snatched from Japan, and introduces them to a world of superlatives: with the largest magnets in the world, the biggest cryogenic plant and tremendous computing power, ITER is one of the most fascinating, and most international, scientific and technological endeavours of our time.

The author describes a number of such systems and their uses. He also discusses quasi-interactive systems, which seek responses from an audience before they can proceed. He considers the problems involved in designing such systems and suggests future possibilities.
