At the Entrance to the Garden of Eden Yossi K. Halevi, 2002-06-18 A brilliantly observed memoir of an unprecedented and remarkable spiritual journey. While religion has fuelled the often violent conflict plaguing the Holy Land, Yossi Klein Halevi wondered whether it could be a source of unity as well. To find the answer, this religious Israeli Jew began a two-year exploration to discover a common language with his Christian and Muslim neighbours. He followed their holiday cycles, befriended Christian monastics and Islamic mystics, and joined them in prayer in monasteries and mosques in Israel, the West Bank, and Gaza. At the Entrance to the Garden of Eden traces that remarkable spiritual journey. Halevi candidly reveals how he fought to reconcile his own fears and anger as a Jew to relate to Christians and Muslims as fellow spiritual seekers. He chronicles the difficulty of overcoming multiple obstacles—geological, political, historical, and psychological—at separate believers of the three monotheistic faiths. And he introduces a diverse range of people attempting to reconcile the dichotomous heart of this sacred place—struggle central to Israel, but which resonates for us all.

Relativity and Scientific Computing Friedrich W Hehl, Roland A. Puntigam, Hanns Ruder, 2012-12-06 For this set of lectures we assumed that the reader has a reasonable background in physics and some knowledge of general relativity, the modern theory of gravity in macrophysics, and cosmology. Computer methods are presented by leading experts in the three main domains: in numerics, in computer algebra, and in visualization. The idea was that each of these subdisciplines is introduced by an extended set of main lectures and that each is conceived as being of comparable 'importance. Therefore we believe that the book represents a good introduction into scientific computing for any student who wants to specialize in relativity, gravitation, and/or astrophysics. We took great care to select lecturers who teach in a comprehensible way and who are, at the same time, at the research front of their respective field. In numerics we had the privilege of having a lecturer from the National Center for Supercomputing Applications (NCSA, Champaign, IL, USA) and some from other leading institutions of the world; visualization was taught by a visualization expert from Boeing; and in computer algebra we took recourse to practitioners of different computer algebra systems as applied to classical general relativity up to quantum gravity and differential geometry.

Like Dreamers Yossi Klein Halevi, 2013-10-01 Winner of the Everett Family Jewish Book of the Year Award (a National Jewish Book Award) and the RUSA Sophie Brody Medal. In *Like Dreamers*, acclaimed journalist Yossi Klein Halevi

interweaves the stories of a group of 1967 paratroopers who reunited Jerusalem, tracing the history of Israel and the divergent ideologies shaping it from the Six-Day War to the present. Following the lives of seven young members from the 55th Paratroopers Reserve Brigade, the unit responsible for restoring Jewish sovereignty to Jerusalem, Halevi reveals how this band of brothers played pivotal roles in shaping Israel's destiny long after their historic victory. While they worked together to reunite their country in 1967, these men harbored drastically different visions for Israel's future. One emerges at the forefront of the religious settlement movement, while another is instrumental in the 2005 unilateral withdrawal from Gaza. One becomes a driving force in the growth of Israel's capitalist economy, while another ardently defends the socialist kibbutzim. One is a leading peace activist, while another helps create an anti-Zionist terror underground in Damascus. Featuring an eight pages of black-and-white photos and maps, *Like Dreamers* is a nuanced, in-depth look at these diverse men and the conflicting beliefs that have helped to define modern Israel and the Middle East.

As an amateur runner about to turn forty, he also hoped find out whether the Japanese approach to training might help him keep improving. What he learned - about competition, about team work, about beating your personal bests, about form and about himself - will fascinate anyone who is keen to explore why we run, and how we might do it better.

The Iran-Iraq War Williamson Murray, Kevin M. Woods,2014-09-04 The Iran-Iraq War is one of the largest, yet least documented conflicts in the history of the Middle East. Drawing from an extensive cache of captured Iraqi government records, this book is the first comprehensive military and strategic account of the war through the lens of the Iraqi regime and its senior military commanders. It explores the rationale and decision-making processes that drove the Iraqis as they grappled with challenges that, at times, threatened their existence. Beginning with the bizarre lack of planning by the Iraqis in their invasion of Iran, the authors reveal Saddam's desperate attempts to improve the competence of an officer corps that he had purged to safeguard its loyalty to his tyranny, and then to weather the storm of suicidal attacks by Iranian religious revolutionaries. This is a unique and important contribution to our understanding of the history of war and the contemporary Middle East.

Fly Fishing for Smallmouth Bass Harry Murray,1996-07 Murray discusses all aspects of fly fishing for smallmouth, from topwater flies, bugs, poppers, and tactics, to new brands of streamer, nymph, and stryph fishing that he and others have developed over the years.

The History of Fly-Fishing in Fifty Flies Ian Whitelaw,2015-04-07 A look at the development of the sport over the past six centuries. Once limited to trout and salmon, today fly-fishing techniques are used to catch every fish species from minnows to marlin in rivers, lakes and oceans from the Amazon to the Arctic. From the many thousands of fly patterns developed over the centuries, *The History of Fly-Fishing in Fifty Flies* focuses on fifty iconic flies chosen to represent the evolution not only of fishing flies and fly tying but also the sport itself. Filled with illustrations and photographs of the flies (the fifty are just the starting point—more than 200 flies are mentioned or shown in the book), as well as profiles of key characters, *The History of Fly-Fishing in Fifty Flies* charts the growth and diversification of this fascinating sport from the fifteenth century to the present day and its spread from Britain, Europe and Japan to North and South America, Australia and New Zealand, and now to every country in the world. The evolution of fly-fishing tackle—rods, reels, lines and hooks—is also covered in a series of essays spread throughout the book. Praise for *The History of Fly-Fishing in Fifty Flies* “A delightful ramble along the stream of fishing history.” —Star Tribune “This glorious book of lures will get you itching for a new toy, a new boat, a new rod—anything to experience the relaxation of this old hobby.” —Foreword Reviews

Creating the Vietnam Veterans Memorial Robert W. Doubek, 2015-06-18 Since its dedication in 1982, the Vietnam Veterans Memorial has become an American cultural icon symbolizing the war in Vietnam--the defining experience of the Baby Boom generation. The black granite wall of names is one of the most familiar media images associated with the war, and after three decades the memorial remains one of the nation's most visited monuments. While the memorial has enjoyed broad acceptance by the American public, its origins were both humble and contentious. A grassroots effort launched by veterans with no funds, the project was completed in three and a half years. But an emotional debate about aesthetics and the interpretation of heroism, patriotism and history nearly doomed the project. Written from an insider's perspective, this book tells the complete story of the memorial's creation amid Washington politics, a nationwide design competition and the heated controversy over the winning design and its creator.

Muslim Communities Reemerge Edward Allworth,1994 The terrible events afflicting Muslims in Bosnia-Herzegovina and Tajikistan fill the news, commanding the world's attention. This timely volume offers rare insight into the background of these catastrophic conflicts. First published in German on the eve of the breakup of the Yugoslav and Soviet republics, it is one of the few books in any language to analyze, in detail and in depth, the historical and contemporary situation of Muslims in former communist states and thus clarifies the sources, development, and implications of the events that dominate today's foreign news. In fourteen chapters and an updated introduction, European and North American specialists examine the recent evolution of Islamic expression and practice in these former Communist regions, as well as its political significance within officially atheistic regimes. Representing a wide range of disciplines and perspectives, the authors detail how the modern ethno-religious situation developed and matured in hostile circumstances, the degree of latitude the local Muslims achieved in religious expression, and what prospect the future seemed to offer just before the breakup of the Soviet Union and the Federal Republic of Yugoslavia. Overall, the book provides a thorough analysis of the coincidence and tension between ethnic and religious identity in two countries officially devoted to the separation of ethnic groups in domestic cultural arrangements but not in the social or political realm. Contributors. Edward Allworth, Hans Bräker, Marie Broxup, Georg Brunner, Bert G. Fragner, Uwe Halbach, Wolfgang Höpken, Andreas Kappeler, Edward J.
