**What's your move** Nicolette Mashile, 2020-08-01 An intimate and deeply personal book, in What's Your Move? Nicolette talks openly about her experiences with money and the way she was brought up. She shares her beliefs about how our everyday behaviour influences how we manage our finances, and how, in spite of knowing better, we sometimes make the wrong financial decisions. What's Your Move? is a challenge: a challenge to you to make a move that will be financially rewarding. A promise to yourself that you are more than capable of managing your money.

**The Marble Dance** Lygia Fagundes Telles, 1986

**Traditions and Contexts in the Poetry of Horace** Tony Woodman, Denis Feeney, 2002-05-16 This book explores the whole range of the output of an exceptionally versatile and innovative poet, from the Epodes to the literary-critical Epistles. Distinguished scholars of diverse background and interests introduce readers to a variety of critical approaches to Horace and to Latin poetry. Close attention is paid throughout to the actual text of Horace, with many of the chapters focusing on reading a single poem. These close readings are then situated in a number of different political, philosophical and historical contexts. The book sheds light not only on Horace but on the general problems confronting Latinists in the study of Augustan poetry, and it will be of value to a wide range of upper-level Latin students and scholars.

**The Walking Muse** Kirk Freudenburg, 2014-07-14 In laying the groundwork for a fresh and challenging reading of Roman satire, Kirk Freudenburg explores the literary precedents behind the situations and characters created by Horace, one of Rome's earliest and most influential satirists. Critics tend to think that his two books of Satires are but trite sermons of moral reform--which the poems superficially claim to be--and that the reformer speaking to us is the young Horace, a naive Roman imitator of the rustic, self-made Greek philosopher Bion. By examining Horace's debt to popular comedy and to the conventions of Hellenistic moral literature, however, Freudenburg reveals the sophisticated mask through which the writer distances himself from the speaker in these earthy diatribes--a mask that enables the lofty muse of poetry to walk in satire's mundane world of adulterous lovers and quarrelsome neighbors. After presenting the speaker of the diatribes as a stage character, a version of the haranguing cynic of comedy and mime, Freudenburg explains the theoretical importance of such conventions in satire at large. His analysis includes a reinterpretation of Horace's criticisms of Lucilius, and ends with a

theory of satire based on the several images of the satirist presented in Book One, which reveals the true depth of Horace's ethical and philosophical concerns. Originally published in 1992. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Origin and Evolution of Sex Harlyn O. Halvorson,1985

*Evolution and Speciation* William R. Atchley,David S. Woodruff,1981-05-29 This 1981 collection focuses on a wide range of topics in the general field of evolutionary biology. The authors have all been associated with Professor M. J. D. White, who was the world authority on chromosomal evolution and speciation, to whom this volume was presented on his seventieth birthday.

The Imperative of Responsibility Hans Jonas,1984 Hans Jonas here rethinks the foundations of ethics in light of the awesome transformations wrought by modern technology: the threat of nuclear war, ecological ravage, genetic engineering, and the like. Though informed by a deep reverence for human life, Jonas's ethics is grounded not in religion but in metaphysics, in a secular doctrine that makes explicit man's duties toward himself, his posterity, and the environment. Jonas offers an assessment of practical goals under present circumstances, ending with a critique of modern utopianism.

**Madness and Civilization** Michel Foucault, 2013-01-30 Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the insane and the rest of humanity.

**The Hermeneutics of the Subject** Michel Foucault, 2005-04-02 The Hermeneutics of the Subject is the third volume in the collection of Michel Foucault's lectures at the Collège de France, one of the world's most prestigious institutions. Faculty at the Collège give public lectures, in which they present works-in-progress on any subject of their choosing. Foucault's wide-ranging lectures influenced his groundbreaking works like *The History of Sexuality and Discipline and Punish*. In the lectures comprising this volume, Foucault focuses on how the self and the care of the self were conceived during the period of antiquity, beginning with Socrates. The problems of the ethical formation of the self, Foucault argues, form the background for our own questions about subjectivity and remain at the center of contemporary moral thought. This series of lectures throws new light on Foucault's final works and shows the full depth of his engagement with ancient thought. Lucid and provocative, *The Hermeneutics of the Subject* reveals Foucault at the height of his powers.

**Critique of Black Reason** Achille Mbembe, 2017-03-02 In *Critique of Black Reason* eminent critic Achille Mbembe offers a capacious genealogy of the category of Blackness—from the Atlantic slave trade to the present—to critically reevaluate history, racism, and the future of humanity. Mbembe teases out the intellectual consequences of the reality that Europe is no longer the world's center of gravity while mapping the relations among colonialism, slavery, and contemporary financial and extractive capital. Tracing the conjunction of Blackness with the biological fiction of race, he theorizes Black reason as the collection of discourses and practices that equated Blackness with the nonhuman in order to uphold forms of oppression. Mbembe powerfully argues that this equation of Blackness with the nonhuman will serve as the template for all new forms of exclusion. With *Critique of Black Reason*, Mbembe offers nothing less than a map of the world as it has been constituted through colonialism and racial thinking while providing the first glimpses of a more just future.

*Phenomenology of Perception* Maurice Merleau-Ponty, 1996 Buddhist philosophy of Anicca (impermanence), Dukkha (suffering), and

**The Philosophy of Symbolic Forms, Volume 2** Ernst Cassirer, 2020-09-24 *The Philosophy of Symbolic Forms* is one of the landmarks of twentieth century philosophy. Drawing from the influential work of Wilhelm Dilthey, it transformed neo-Kantianism into a new robust philosophy of culture. The second volume, on Mythical Thinking, analyzes the fundamental

layers of perception and expression as well as the articulations with religion and the dialectic with other forms, essentially language and art. The intellectual breadth of the volume is remarkable. It initiated the debate with Martin Heidegger and prompted a long-lasting meditation by Hans Blumenberg. We are only beginning to recognize its importance for our understanding of the power of images in the construction of aesthetics, the self, and the socio-political world. It initiated a discussion within French sociology (Émile Durkheim, Marcel Mauss) that ultimately resurfaced in Pierre Bourdieu, while today it is considered as a resourceful path for cultural and critical theory (Drucilla Cornell and Kenneth M. Panfilio). Finally, this volume also offers solid grounds for a political critique of Nazism - specifically: Alfred Rosenberg's *Myth of the 20th Century* and Adolf Hitler's *Mein Kampf* - as well as the new emerging totalitarian ideologies. Fabien Capeilleres, Professor of Philosophy, editor of the French edition of Cassirer's Works. This new translation makes Cassirer's seminal work available to a new generation of scholars. Each volume includes a translator's introduction by Steve G. Lofts, a foreword by Peter E. Gordon, a glossary of key terms, and an index.

**A Short History of Decay** E. M. Cioran, 2012-11-13 E. M. Cioran confronts the place of today's world in the context of human history—focusing on such major issues of the twentieth century as human progress, fanaticism, and science—in this nihilistic and witty collection of aphoristic essays concerning the nature of civilization in mid-twentieth-century Europe. Touching upon Man's need to worship, the feebleness of God, the downfall of the Ancient Greeks and the melancholy baseness of all existence, Cioran's pieces are pessimistic in the extreme, but also display a beautiful certainty that renders them delicate, vivid, and memorable. Illuminating and brutally honest, *A Short History of Decay* dissects Man's decadence in a remarkable series of moving and beautiful pieces.

**Necropolitics** Achille Mbembe, 2019-10-25 In *Necropolitics* Achille Mbembe, a leader in the new wave of francophone critical theory, theorizes the genealogy of the contemporary world, a world plagued by ever-increasing inequality, militarization, enmity, and terror as well as by a resurgence of racist, fascist, and nationalist forces determined to exclude and kill. He outlines how democracy has begun to embrace its dark side---what he calls its “nocturnal body”---which is based on the desires, fears, affects, relations, and violence that drove colonialism. This shift has hollowed out democracy, thereby eroding the very values, rights, and freedoms liberal democracy routinely celebrates. As a result, war has become the sacrament of our times in a conception of sovereignty that operates by annihilating all those considered enemies of the state. Despite his dire diagnosis, Mbembe draws on post-Foucauldian debates on biopolitics, war, and race as well as Fanon's notion of care as a shared vulnerability to explore how new conceptions of the human that transcend humanism might come to pass. These new conceptions would allow us to encounter the Other not as a thing to exclude but as a person with whom to build a more just world.
