Tunnel 29 Helena Merriman, 2021-08-24 He escaped from one of the world's most brutal regimes. Then, he decided to tunnel back in. In the summer of 1962, a young student named Joachim Rudolph dug a tunnel under the Berlin Wall. Waiting on the other side in East Berlin were dozens of men, women, and children—all willing to risk everything to escape. From the award-winning creator of the acclaimed BBC Radio 4 podcast, *Tunnel 29* is the true story of this most remarkable Cold War rescue mission. Drawing on interviews with the survivors and Stasi files, Helena Merriman brilliantly reveals the stranger-than-fiction story of the ingenious group of student-diggers, the glamorous red-haired messenger, the Stasi spy who threatened the whole enterprise, and the love story that became its surprising epilogue. *Tunnel 29* was also the first made-for-TV event of its kind; it was funded by NBC, who wanted to film an escape in real time. Their documentary—which was nearly blocked from airing by the Kennedy administration, which wanted to control the media during the Cold War—revolutionized TV journalism. Ultimately, *Tunnel 29* is a success story about freedom: the valiant citizens risking everything to win it back, and the larger world rooting for them to triumph.

Agents of Influence Henry Hemming, 2019-10-08 The astonishing story of the British spies who set out to draw America into World War II As World War II raged into its second year, Britain sought a powerful ally to join its cause—but the American public was sharply divided on the subject. Canadian-born MI6 officer William Stephenson, with his knowledge and influence in North America, was chosen to change their minds by any means necessary. In this extraordinary tale of foreign influence on American shores, Henry Hemming shows how Stephenson came to New York—hiring Canadian staffers to keep his

operations secret--and flooded the American market with propaganda supporting Franklin Roosevelt and decrying Nazism. His chief opponent was Charles Lindbergh, an insurgent populist who campaigned under the slogan America First and had no interest in the war. This set up a shadow duel between Lindbergh and Stephenson, each trying to turn public opinion his way, with the lives of millions potentially on the line.

The Black Panther Party (reconsidered) Charles Earl Jones,1998 This new collection of essays, contributed by scholars and former Panthers, is a ground-breaking work that offers thought-provoking and pertinent observations about the many facets of the Party. By placing the perspectives of participants and scholars side by side, Dr. Jones presents an insider view and initiates a vital dialogue that is absent from most historical studies.

Cardio-Obstetrics Afshan B. Hameed,Diana S. Wolfe,2020-03-25 Cardiac disease is one of the leading causes of maternal morbidity and mortality. Catastrophic outcomes typically encountered are due to gaps in knowledge and communication between health care providers. There is a great need for a standardized approach for care of this very high-risk group of pregnant women. The book encompasses detailed obstetrics and cardiology perspectives that are crucial in the management of the commonly encountered cardiac conditions in pregnancy. This text aims to provide guidance to the whole team caring for a pregnant cardiac patient consisting of obstetricians, maternal-fetal medicine, hospitalists, cardiologists, obstetric anaesthesiologists, emergency physicians, primary care providers and nurses. Features: Cardio-Obstetric team organization Preconception counselling and family planning considerations Cardiovascular disease screening and risk stratification of a pregnant cardiac patient Management of a wide spectrum of cardiovascular diagnoses through use of checklists and algorithms in a simple format Essential key points for each cardiac diagnosis

Feeding the Hungry Michelle Jurkovich,2020-10-15 Food insecurity poses one of the most pressing development and human security challenges in the world. In *Feeding the Hungry*, Michelle Jurkovich examines the social and normative environments in which international anti-hunger organizations are working and argues that despite international law ascribing responsibility to national governments to ensure the right to food of their citizens, there is no shared social consensus on who ought to do what to solve the hunger problem. Drawing on interviews with staff at top international anti-hunger organizations as well as archival research at the United Nations Food and Agriculture Organization, the UK National Archives, and the U.S. National Archives, Jurkovich provides a new analytic model of transnational advocacy. In investigating advocacy around a critical economic and social right—the right to food—Jurkovich challenges existing understandings of the relationships among human rights, norms, and laws. Most important, *Feeding the Hungry* provides an expanded conceptual tool kit with which we can examine and understand the social and moral forces at play in rights advocacy.

Mirror-travels Jennifer L. Roberts,Robert Smithson,2004 Offering a critical analysis of Smithson's view of time, it

provides comprehensive case studies of three of his most influential projects: The Monuments of Passaic, a sardonic tour of a decaying New Jersey city conducted in the wake of the passage of the National Historic Preservation Act; Incidents of Mirror-Travel in the Yucatan, a textual-sculptural-photographic travelogue that coincided with a series of revolutionary discoveries about Maya history; and the Spiral Jetty.--BOOK JACKET.

Science Set Free Rupert Sheldrake,2013-09-03 The bestselling author of *Dogs That Know When Their Owners Are Coming Home* offers an intriguing new assessment of modern day science that will radically change the way we view what is possible. In *Science Set Free* (originally published to acclaim in the UK as *The Science Delusion*), Dr. Rupert Sheldrake, one of the world's most innovative scientists, shows the ways in which science is being constricted by assumptions that have, over the years, hardened into dogmas. Such dogmas are not only limiting, but dangerous for the future of humanity. According to these principles, all of reality is material or physical; the world is a machine, made up of inanimate matter; nature is purposeless; consciousness is nothing but the physical activity of the brain; free will is an illusion; God exists only as an idea in human minds, imprisoned within our skulls. But should science be a belief-system, or a method of enquiry? Sheldrake shows that the materialist ideology is moribund; under its sway, increasingly expensive research is reaping diminishing returns while societies around the world are paying the price. In the skeptical spirit of true science, Sheldrake turns the ten fundamental dogmas of materialism into exciting questions, and shows how all of them open up startling new possibilities for discovery. *Science Set Free* will radically change your view of what is real and what is possible.

Survivors Maggie Oliver,2019 A heartbreaking expose on the Rochdale grooming scandal from whistleblower and former detective Maggie Oliver.

Betrayal in Berlin Steve Vogel,2019-09-24 A riveting and vivid account. ... A remarkable story. ... It reads like a Hollywood screenplay. —Foreign Affairs The astonishing true story of the Berlin Tunnel, one of the West's greatest espionage operations of the Cold War—and the dangerous Soviet mole who betrayed it. Its code name was "Operation Gold," a wildly audacious CIA plan to construct a clandestine tunnel into East Berlin to tap into critical KGB and Soviet military telecommunication lines. The tunnel, crossing the border between the American and Soviet sectors, would have to be 1,500 feet (the length of the Empire State Building) with state-of-the-art equipment, built and operated literally under the feet of their Cold War adversaries. Success would provide the CIA and the British Secret Intelligence Service access to a vast treasure of intelligence. Exposure might spark a dangerous confrontation with the Soviets. Yet as the Allies were burrowing into the German soil, a traitor, code-named Agent Diamond by his Soviet handlers, was burrowing into the operation itself. . . . *Betrayal in Berlin* is Steve Vogel's heart pounding account of the operation. He vividly recreates post-war Berlin, a scarred, shadowy snake pit with thousands of spies and innumerable cover stories. It is also the most vivid account of George Blake,

perhaps the most damaging mole of the Cold War. Drawing upon years of archival research, secret documents, and rare interviews with Blake himself, Vogel has crafted a true-life spy story as thrilling as the novels of John le Carré and Len Deighton. *Betrayal in Berlin* includes 24 photos and two maps.

Business Analysis and Valuation Sue Joy Wright, Michael Bradbury, Philip Lee, Krishna G. Palepu, Paul M. Healy, 2014 *Business Analysis and Valuation* has been developed specifically for students undertaking accounting Valuation subjects. With a significant number of case studies exploring various issues in this field, including a running chapter example, it offers a practical and in-depth approach. This second edition of the Palepu text has been revitalised with all new Australian content in parts 1-3, making this edition predominantly local, while still retaining a selection of the much admired and rigorous Harvard case studies in part 4. Retaining the same author team, this new edition presents the field of valuation accounting in the Australian context in a clear, logical and thorough manner.

Atomic Spy Nancy Thorndike Greenspan, 2020-05-12 Nancy Greenspan dives into the mysteries of the Klaus Fuchs espionage case and emerges with a classic Cold War biography of intrigue and torn loyalties. *Atomic Spy* is a mesmerizing morality tale, told with fresh sources and empathy. --Kai Bird, author of *The Good Spy* and coauthor of *American Prometheus: The Triumph and Tragedy of J. Robert Oppenheimer* Enthralling and riveting.--The New York Times Book Review The gripping biography of a notorious Cold War villain--the German-born British scientist who handed the Soviets top-secret American plans for the plutonium bomb--showing a man torn between conventional loyalties and a sense of obligation to a greater good. German by birth, British by naturalization, Communist by conviction, Klaus Fuchs was a fearless Nazi resister, a brilliant scientist, and an infamous spy. He was convicted of espionage by Britain in 1950 for handing over the designs of the plutonium bomb to the Russians, and has gone down in history as one of the most dangerous agents in American and British history. He put an end to America's nuclear hegemony and single-handedly heated up the Cold War. But, was Klaus Fuchs really evil? Using archives long hidden in Germany as well as intimate family correspondence, Nancy Thorndike Greenspan brings into sharp focus the moral and political ambiguity of the times in which Fuchs lived and the ideals with which he struggled. As a university student in Germany, he stood up to Nazi terror without flinching, and joined the Communists largely because they were the only ones resisting the Nazis. After escaping to Britain in 1933, he was arrested as a German émigré--an enemy alien--in 1940 and sent to an internment camp in Canada. His mentor at university, renowned physicist Max Born, worked to facilitate his release. After years of struggle and ideological conflict, when Fuchs joined the atomic bomb project, his loyalties were firmly split. He started handing over top secret research to the Soviets in 1941, and continued for years from deep within the Manhattan Project at Los Alamos. Greenspan's insights into his motivations make us realize how he was driven not just by his Communist convictions but seemingly by a dedication to peace, seeking to level the playing field of the world powers. With thrilling detail from never-before-seen sources, *Atomic Spy* travels across the

Germany of an ascendant Nazi party; the British university classroom of Max Born; a British internment camp in Canada; the secret laboratories of Los Alamos; and Eastern Germany at the height of the Cold War. Atomic Spy shows the real Klaus Fuchs--who he was, what he did, why he did it, and how he was caught. His extraordinary life is a cautionary tale about the ambiguity of morality and loyalty, as pertinent today as in the 1940s.

The Last Ticket Christopher Sharp,2017-09-13 Steve and his family move more than two thousand miles across the country to find a new beginning and remake their life together. Unfortunately, things didn't turn out exactly as they planned. After the money ran short and he still couldn't find work he went to a day labor office as a last resort. On his first day there, he meets an unusual man that takes a special interest in him. As the man tries to dissuade him from working for the company, Steve tries to figure out why, that's when things get weird.

People of the Rainforest John Hemming,2020-02-01 In 1945, three young brothers joined and eventually led Brazil's first government-sponsored expedition into its Amazonian rainforests. After more expeditions into unknown terrain, they became South America's most famous explorers, spending the rest of their lives with the resilient tribal communities they found there. People of the Rainforest recounts the Villas Boas brothers' four thrilling and dangerous 'first contacts' with isolated indigenous people, and their lifelong mission to learn about their societies and, above all, help them adapt to modern Brazil without losing their cultural heritage, identity and pride. Author and explorer John Hemming vividly traces the unique adventures of these extraordinary brothers, who used their fame to change attitudes to native peoples and to help protect the world's surviving tropical rainforests, under threat again today.

Dare to Care: Pet Dragon Mark Robertson,Sally Symes,2016-04-07 A spectacular and fun spoof pet-care guide to dragons, with clear, concise information on everything from choosing an egg to feeding, grooming and training your dragon, plus spreads on taking your dragon to the vet and teaching it to fly! Very witty and amusing text, kept as brief as possible, accompanies full spread artworks in captions and short paras. Stunning illustrations from M. P. Robertson show the different types of dragons. Perfect for any child who's ever dreamed of having a dragon in their life.

The Economic Consequences of the Gulf War Kamran Mofid,2005-10-26 The Iran-Iraq War were one of the longest and most devastating uninterrupted wars amongst modern nation states. It produced neither victor nor vanquished and left the regimes in both countries basically intact. However, it is clear that the domestic, regional and international repercussions of the war mean that 'going back' is not an option. Iraq owes too much to regain the lead it formerly held in economic performance and development levels. What then does reconstruction mean? In this book, Kamran Mofid counteracts the scant analysis to date of the economic consequences of the Gulf War by analysing its impact on both economies in terms of oil

production, exports, foreign exchange earnings, non-defence foreign trade and agricultural performance. In the final section, Mofid brings together the component parts of the economic cost of the war to assign a dollar value to the devastation.

Linda Vaughn Rob Kinnan, Linda Vaughn, 2016-10-14 Perhaps the most photographed personality in automotive and motorsports history, Linda Vaughn has entertained fans and has been a premier marketer of automotive goods for more than 55 years. From her first days as Miss Atlanta Raceway, coming of age while representing Hurst, through her annual appearances at America's top automotive and racing events, Linda continues to engage fans, drawing long lines whenever she makes an appearance. At her peak, Linda attended more than 100 events annually, year after year, and she still attends more than 25 events each year. The only entity that's probably seen as many events as Linda is Goodyear! For the first time ever, Linda Vaughn allows her fans a behind-the-scenes look at her career in motorsports and promotion through her personal photographic archive and other photos. Through captions, Linda tells the story of individual images recounting countless stories from her photographic memory, with no detail left unshared. She recounts events with racing personalities and automotive icons from George Hurst to Richard Petty to Mario Andretti to Don Garlits. Nobody is left out as Linda tells stories about the photos chronicling her career in Motorsports. Linda Vaughn: The First Lady of Motorsports is the most comprehensive gathering of imagery ever assembled on Linda Vaughn. Through her 50-plus years in Motorsports, Linda has lived it all, been everywhere, and met everyone. Whether you are simply a fan of Linda or a collector of Linda Vaughn memorabilia, this will be the premier piece in your collection!
