*CATIMBÓ - JUREMA SAGRADA* Tilo Plöger,2022-04-19 This book is the first and for the time being only comprehensive theoretical and practical work on the Indian tradition of the Brazilian Catimbó. On almost 600 pages, the concepts, the organization, the mythology, the rituals, the terms of this centuries-old Indian shamanic tradition are discussed. A book for anyone interested in shamanic traditions. The book is also aimed at those who deal with these traditions in practice and are looking for concrete tips for the traditional ritual implementation. The tradition of Catimbó, which is native to northeastern Brazil, is an enrichment especially for those who are already familiar with the Amazonian traditions of Ayahuasca and Kambô.

*American Elsewhere* Robert Jackson Bennett,2013-02-12 From one of our most talented and original new literary voices comes the next great American supernatural novel: a work that explores the dark dimensions of the hometowns and the

neighbors we thought we knew. Some places are too good to be true. Under a pink moon, there is a perfect little town not found on any map: Wink, New Mexico. In that town, there are quiet streets lined with pretty houses, houses that conceal the strangest things. After a couple years of hard traveling, ex-cop Mona Bright inherits her long-dead mother's home. And the closer Mona gets to her mother's past, the more she understands that the people of Wink are very, very different . . . Perfect for fans of Stephen King and Neil Gaiman. -- Library Journal

*Puertas adentro* Aníbal Parodi,2005 Puertas adentro, dentro y fuera, interior y exterior, envolvente y espacio. Existen, sin duda, pocos dialogos que se vinculen de un modo tan determinante con la identidad mas intima del hecho arquitectonico. Pareceria que todo el conflicto que supone la concepcion del espacio se resume, precisamente, en la magia que integra y divide estos hemisferios complementarios en permanente interaccion. El presente trabajo decide explorar el fenomeno de la interioridad desde la determinante investigacion espacial que supone el diseno de la vivienda. Se aleja voluntariamente del espiritu comprensivo y registral de los textos de historia de la arquitectura y se concentra en un universo considerablemente reducido respecto a la produccion sumamente interesante del siglo pasado. Tan solo diecisiete vinetas para presentar el fluir del pensamiento arquitectonico en el transcurso de todo un siglo. Esta seleccion de ejemplos - presentada en orden cronologico- intenta desplegar un abanico lo mas completo posible de las distintas actitudes de aproximacion al diseno del espacio interior y su equipamiento, para lo cual se recurre tanto a ejemplos paradigmaticos como perifericos a los supuestos centros de produccion cultural. El trabajo se complementa con una presentacion interactiva en CD-ROM. El proceso de investigacion se deja, sin embargo, voluntariamente abierto, lo que estimula el desarrollo de otras historias -transversales y complementarias- que arrojen nueva luz sobre el fascinante universo del espacio interior.
