Коралина / Coraline Нил Гейман, 2019-06-10 Исследуя дом, в который только что переехала её семья, Коралина находит дверь, ведущую в никуда. Или, точнее, дверь, которая вела в никуда, пока её не открыли правильным ключом. Теперь за ней находится проход в другой мир, очень похожий на мир Коралины: здесь тот же дом, те же странные соседи, и даже её мама и папа! Только еда здесь вкуснее, игры веселее, а животные могут разговаривать. А раз здесь так хорошо, то почему бы не остаться здесь навсегда? Текст произведения снабжен грамматическим комментарием и словарем, в который вошли ВСЕ слова, содержащиеся в тексте. Благодаря этому книга подойдет для любого уровня владения языком.

Master the GED: Practice Test 3 Peterson's, 2012-06-29 Master the GED: Practice Test 3, part of Peterson's Master the GED 2013, is a full-length practice test designed to help you prepare for the GED. Door of Light Kyle Lance Proudfoot, 2016-05-27 My book is called Door of Light and is the third and final part of my trilogy, starting with The Black Dungeon Doorway and then Planes of Existence. It is about the following: I explore the potential for a utopian society on an elite colony spaceship that is on its way at light speed to another colony planet in the Milky Way galaxy. Exploring the theories of light speed, faster than light speed (FTL), and the dynamics of such a spaceship in story format, Door of Light goes on another great and exciting adventure with plenty of detail and action. Time is also explored, and it concludes with my song lyrics to celebrate the new colony.

Smart Homes and Beyond C. Nugent,J.C. Augusto,2006-06-13 The thought behind this publication is to continue to develop an active research community dedicated to explore how Smart Homes and Health Telematics can foster independent living and offer an enhanced quality of life for ageing and disabled people. As we begin to witness the effects of changing demographics on today's society we begin to appreciate that the increase in the number of elderly and in the prevalence of those suffering from chronic disease and disabilities are likely to further increase in the next two to three decades. To react to the needs of this cohort to provide an environment within which the people can reside for as long as possible, whilst maintaining their quality of life and independence, is a widespread concern for all. As such, there is real benefit to further investigate the role of technologies to address these changes and subsequently offer practical solutions to support independent living. The editors feel that within the realms of Smart Homes and Health Telematics real, affordable and useful services can be developed which will have the necessary underlying technological and service delivery infrastructures to allow seamless integration into existing care delivery paradigms. The introduction of technology can provide a positive impact. However, it is necessary to avoid any detrimental effects if reliance upon technology within the home environment becomes so great that people will not leave their own home in fear of losing the support once outside of the home, or its close proximity. This publication focuses on promoting personal autonomy and extending the quality of life by considering including smart services inside and outside of the home.

Robinson Crusoe Daniel Defoe,2003-04-14 Bring the Classics To Life. These novels have been adapted into 10 short chapters that will excite the reluctant reader as well as the enthusiastic one. Key words are defined and used in context. Multiple-choice questions require the student to recall specific details, sequence the events, draw inferences from story context, develop another name for the chapter, and choose the main idea. Let the Classics introduce Kipling, Stevenson, and H.G. Wells. Your students will embrace the notion of Crusoe's lonely reflections, the psychological reactions of a Civil War soldier at Chancellorsville, and the tragedy of the Jacobite Cause in 18th Century Scotland. In our society, knowledge of these Classics is a cultural necessity. Improves fluency, vocabulary and comprehension.

Goodbye, Perfect Homaira Kabir,2023-04-11 Why are so many conscientious women needlessly hard on themselves for things they readily forgive in others? Why do so many competent women shy away from risks and opportunities, or fear speaking up in the workplace? And why do so many ambitious women feel like a fraud despite the success and achievements

they have rightfully earned? For fans of Brene Brown and lovers of inspiring self-help titles, *Goodbye, Perfect* is a must-read leadership and self-care book for women who have fallen into the toxic traps of perfectionism, approval seeking and endless doing. At its core, it teaches us how to embrace the gifts our lives embody, and reclaim joy, ease and psychological well being as fundamental tenets of a brave and purpose-driven life. This is the essence of living for yourself. It is about living the life you're here to live. With a clear and science-based explanation of the two types of high confidence, and highly relatable stories from both her personal and professional life, author, coach and thought leader Homaira Kabir helps us understand why most women struggle with fragile confidence, and how it is the greatest barrier to their biggest lives. She offers an uplifting and empowering way to reclaim our lives, both professionally and personally; instead of fighting the behaviors that we know are getting in our way, we unhook from the need to engage with them. It is the journey of optimal confidence.
